YEAR (2018-2019)

ICT support is used by students in various learning situations

ICT is a very important tool in education system . As the student teacher it's need to aware about the ICT and its use. In Hon. Shri. Annasaheb Dange College of education, B.Ed. Ashta Teachers and students uses ICT for lots of a purpose. ICT in education improves engagement and knowledge retention . when ICT is integrated into lesson students become more engaged in their works. Student teacher most open uses ICT is for their routine task that is record keeping, lesson plan development , information presentation , basic information searches on the internet etc.

For understanding theory courses-

For theory courses student teacher used internet for the guidance, taking notes , clear their doubts , for references , also they use for syllabus , also they getting YouTube links for online lectures, old question papers etc for different purposes they use ICT.

Practice teaching-

ICT is a useful tool to teach literacy in variety of ways. Student teacher can modify the knowledge and create new resources with the ICT. Interactive white boards have become essential tool in a classroom. Student teacher who is ICT to explain the content in the practice teaching

also the engage the students in a practice teaching schools via using the various apps, links of ICT for their learning. Using the ICT student teacher gates various types of novels difficult ideas new concepts through using internet this solve their doubts and provide a new resources to the students in their teaching. Student teacher gets different types of study material , extra information about the content, newly introductive teaching methods and also getting material for the teaching learning concepts.

Internship-

In B.Ed. course semester second hand semester third has a internship program in various schools . We organised such a internship program in linkageous schools every year. Our B.Ed. students teacher use ICT in internship program for various activities and purposes. News ICT as a resource for getting information, getting study material for a teaching. Also they get newly information related to the particular program and how to run such a type of a program or the practicals in a schools. ICT is a helpful tool and guide to the student teachers for becoming a future teacher with the help of ICT they can elaborate the knowledge, the skills and their teaching competencies. In internship program our student teachers organise various activities such as a book reading, exhibition, different types of sports, competitions , events for that they use as a resource of ICT.

Out of a classroom activities-

As a student of a B.Ed. course it's need to develop such a type of abilities among the student teachers to control their class ,manage students activities, enhance teaching capacities for that our student teachers participate in a out of classroom activities for that they organise visits, compegon, different type of sessional work , quiz projects etc for that our student teachers effectively use of a ICT in there practicals and sessional works. It is a helpful to them to enhance their capabilities and confidence.

In this way every year we organise such a type of a program which is the based on ICT also we organise a practical that is a EPC for the second year students through this practical student use ICT very efficiently in their course. . They use ICT for making videos of educational content also they use for PPTs etc. Through types of ICT student teacher enhance their capabilities related to course using ICT as a support.
